FINANCIAL DEPARTMENT.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1905.

Circular No. 2072 T. A. D. 1390, dated 17th June 1905.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1905, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume I of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the 15th August 1905.*

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by

Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(c) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(d) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(e) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(f) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(g) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(h) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorised should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(i) A detailed statement in Form 4, should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(j) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st November will not be discharged at the Treasuries unless accompanied by a certificate as follows:—

A draft for a modification of those portions of the General Rules, which relate to signalling, was circulated for opinion with the letter of 29th October 1900.

2. After further discussions extending over a considerable period, a meeting was held at Simla on 28th August 1903 to settle the general principles to be adhered to in signalling trains on Indian railways; and the results arrived at were circulated in the Public Works Department letter No. 13 R. T., dated 8th January 1904. These proposals have been generally accepted by all Railway Administrations, to be introduced on the various lines as the necessity for so doing becomes evident; and, as they involve certain modifications in the existing General Rules for working Indian railways by the substitution of a Stop Signal or a Warning Signal for the Distant Signal prescribed in General Rule No. 72, it becomes necessary to regularise their introduction.

3. Pending a complete revision of the General Rules, therefore, *ad interim* additions to Rule 72 were drafted by a Committee appointed to discuss the whole question, and were submitted for the consideration of the Indian Railway Conference Association and of the Government of India, and have been generally accepted with but slight modifications.

4. In exercise, therefore, of the powers conferred by section 47, sub-sections (1) and (4), of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the Director of Railway Traffic has made the amendments specified in the annexure hereto in the General Rules for working open lines of railway which were promulgated with the Government of India's Circular No. 6 Ry., dated the 12th March 1895, and has submitted the same for the sanction of the Governor General in Council, with a view to their being adopted on all railways administered by the Government; and in exercise of the power conferred by sub-section (3) of the same section the Governor General in Council hereby sanctions the said amendments accordingly

5. The Governor General in Council also desires that the said rules may be brought to the notice of the administrations of the several railways not administered by Government, and that the Agents and Managers of those railways may be invited to submit formal applications for the adoption of the said rules.

ORDER.—Ordered, that this circular, with its enclosure, be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations, as directed by sub-section (6) of the same section; also that a copy of this circular, with its enclosure, be communicated to the Local Governments and Administrations and the officers noted in the margin, for information and guidance; and to the Governments of the United Provinces of Agra and Oudh and of the Punjab, the Honourable the Chief Commissioner of the Central Provinces, the Honourable the Resident in Mysore, the Honourable the Agents to the Governor General in Central India and Baluchistan, the Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province, and the Accountant General, Public Works Department, for information.

Amendments of Rules 72, 101 and 269, of Part I of the General Rules of 1895 for working open lines of railway.

[Enclosure to Government of India Circular No. 6 Ry., dated the 14th December 1904.]

Insertion of Rule 72A in, and amendments of Rules 101, and 269 of, Part I of the General Rules for working open lines of railway, which were promulgated with the Government of India Circular No. 6 Ry., dated the 12th March 1895.

1. *After rule 72 of Part I, insert the following :—*

"72A (1)—When specially ordered by the Governor General in Council, the "Distant Signal" shall be an absolute stop signal having a square-ended arm; and when any such order has been given the signal shall be called the "Outer Signal" or "Outer."

(2) The Driver of a running train must not pass an "Outer Signal" or any other Stop Signal that refers to him, when it is "at danger"—

(*a*) unless he has, at a previous station, received notice *in writing* specifying that the Signal is out of order, and he is also signalled past it by a man standing at the Signal, or

(*b*) unless, *after coming to a stand*, he either is given *written permission* from the Station-Master in charge of the Signal, to proceed, or is called on by a "Calling-on arm."

Explanation.—If a Driver has not received a notice *in writing* that such Stop Signal is defective he must STOP, and must pay no heed to any other signal (whether a hand signal or not) that may be exhibited, until he is allowed to proceed under the authority of a calling-on arm on the same post as the defective signal, or by a *written* permission.

(3) Under any absolute stop signal (such as the "Outer Signal" above described) a second and fish-tailed arm called the "Warning Signal" or "Warner" may be placed six to seven feet below the square-ended arm.

(4) The "*Warner*" *arm is not a stop signal*, but is intended to warn Drivers of the condition of the Section ahead. It may be passed when "on," provided that the square-ended arm above it is "off," and that the Driver has his train thoroughly under control and is prepared to stop at the next Stop Signal, or where required.

(5) When a fish-tailed arm, intended to have the significance of a Warning Signal, is used on a post by itself, a fixed *green* light must be shown six to seven feet above the variable light of the fish-tailed arm, so as to indicate by night to Drivers that *it is a Warner and not a Stop Signal.*

(6) No signal arm or light may be placed in a vertical line within 14 feet above or below another arm or light referring to a train on a different track, except with the special permission of the Senior Government Inspector; and such permission must not be given without the special sanction of the Governor General in Council on any section of a railway where "Warning Signals" are in use.

(7) The significance of the various combinations of arms or lights described above, that is to say the meaning to be attached to the indications, is as follows :—

Indication.	Meaning.	Explanation.
(*a*) Square-ended arm "off," *Single green light.*	*Proceed.*	... ..
(*b*) Square-ended arm "on," *Single red light.*	*Danger.*	Stop dead and do not pass till the arm is lowered [see Rule 72 (A) (1).]

Indication.	Meaning.	Explanation.
(c) Upper (square) arm "on," Lower (fish-tailed) arm "on," *Red over red.*	*Danger.*	Stop, and do not pass till the *upper* arm is lowered.
(d) Upper (square) arm "off," Lower (fish-tailed) arm "on," *Green over red.*	*Caution.*	Proceed cautiously, and *be prepared to stop* at the next Stop Signal or where required.
(e) Upper (square) arm "off," Lower (fish-tailed arm "off," *Green over green.*	*All right.*	Proceed with confidence.
(f) Single (fish-tailed arm "on," *Green over red.*	*Caution.*	Same as (*d*).
(g) Single (fish-tailed) arm "off," *Green over green.*	*All right.*	Same as (*e*).

(8) *Red over green* can only occur as an accident, and must be treated as a *Danger* Signal.

(9) If only one light is seen where two should be shown, the Driver must consider it a Danger Signal and stop short of it and ascertain if possible what is wrong. If he finds the square-ended arm "off," he may then proceed cautiously, being guided by the signal in advance, and must on arrival at the Station report the circumstance at once to the Station-Master."

II. *To rule* 101 *of Part I, add the following :—*

"Provided also that clause (*a*) of this rule shall not apply in any case where the square-ended "Outer Signal" referred to in rule 72A has been introduced."

III. *In the first column of the table appended to rule* 269 (1) *of Part I, after* 72 (7) *insert* 72 *A.*

(6) Government Order No. 10120-31—L. B. (304 of 04)-2 of the 6th May 1905, sanctioning the District Fund budget estimates of the Mysore District for the year 1905-06.

II. Read docket No. G. 5270—G. M. 139 of 03-04 of the 22nd March 1905, from the Secretary to the Government of Mysore in the Revenue and General Department, calling for the opinion of the District Board regarding the raising of the waste-weir of the Attigude tank in the Hunsur Taluk, for supplying drinking water to the people and cattle attending the shandy.

Resolved that, as a well would be cheaper than improving the tank in question, which is estimated by the Amildar of the Taluk to cost more than Rs. 1,900, an estimate for the same be called for.

III. Read docket No. 9099—L. B. (304-04)-2 of the 1st April 1905, from the Revenue and General Department Secretary, requesting that the subject of acquiring certain lands for locating the houses of Holeyars at Saligram in the Yedatore Taluk, may be placed before the District Board.

Resolved that the acquisition of the land which is estimated to cost Rs. 510 be undertaken from the District Funds.

IV. Read Docket No. 9153—L. B. (316 of 04)-2 of the 6th April 1905, from the same officer, requesting to be informed whether the District Board is willing to bear ⅔rds of the cost required for sinking a well at Chamrajnagar.

Resolved that as the well does not appear to be necessary, the Board were not willing to contribute any amount towards it; it was further decided that the Municipal Board of Chamrajnagar be advised to arrange for the clearing of the silt from the present honda, known as Dodde Arasinakola, which supplies good drinking water to the whole of the townspeople, and to keep its surroundings clean, as this arrangement would answer all the purposes.

V. Read docket No. 9436—L. B. (322-04)-6 from the same officer, calling for the views of the District Board on an estimate for Rs. 600 prepared for constructing a katte at shandy plain at Santemarahalli in the Chamrajnagar Taluk, for affording water convenience to the cattle collecting on the plain on shandy days.

Resolved after hearing the suggestion of the Executive Engineer of the Mysore Division, who had inspected the place at the request of the President, that the existing honda near the village be improved at a cost of Rs. 600.

VI. Read docket No. 9935—L. B. (331-04)-2 of the 27th April 1905, from the Revenue and General Secretariat, calling for the views of the District Board, anent the continuance or otherwise of the allowance of Rs. 4 per mensem to one Narasimiah, a native pandit at Kalale in the Nanjangud Taluk.

Resolved that as a native pandit has recently been appointed at Hura, which is only three miles distant from Kalale, and as Nanjangud, where there is a Local Fund Dispensary is close by Kalale, the Board would not entertain an extra pandit.

VII. Read docket No. 10180—L. B. (342 of 04)-2 of the 5th May 1905, from the same officer, requesting that the estimate for improving the cart-track from Settihalli village to the Bangalore-Mysore road, towards which half the cost has been contributed, by the villagers, may be placed before the District Board.

Resolved that as the raiyats have come forward so well in contributing a sum of Rs. 800 and odd and in making a free gift of the land to widen the track in certain places, a contribution of Rs. 850 be made from the funds of the Board, and that the work be put in hand as early as possible.

VIII. Read Government Official Memorandum No. 10409—L. B. (347-04)-2 of the 15th May 1905, regarding the removal of Mirle village to a healthier locality; the information furnished by the Amildar of the Yedatore Taluk on the subject was also read to the Board.

Resolved that the removal of many of the houses from the existing town is a *desideratum*, considering the unhealthy locality in which they are located, that the site proposed by the Amildar where an extension can be formed, is in every way suitable, and that the question of cost, if any, be left to the disposal of the executive.

IX. Read docket No. 10491—L. B. (21 of 1904)-9 of the 15th May 1905, from the Secretary to the Government of Mysore in the Revenue and General Department, calling for a full report regarding the removal of dampness in the Manchanahalli village of the Yedatore Taluk; correspondence ending with Yadi No. 1207 of the 24th May 1905, from the Assistant Commissioner of the Hunsur Division, was also placed before the Board. The District Medical and

Sanitary Officer explained orally to the Board that if real and undoubted benefit is to be afforded to the inhabitants of the village, the conversion of all the paddy fields measuring about 60 acres is absolutely necessary.

Resolved that as the villagers have executed a muchalika expressing a ready willingness to throw out of cultivation about 18 acres of land close to the village at their own cost, the result of experiment be watched for one year, at the end of which the question of stopping further wet cultivation be taken up for consideration if the present experiment proves successful.

X. Read docket No. 10696—Ml. (135 of 04)-6 of the 19th May 1905, from the same officer, requesting that the estimate for fitting the dispensary building at Nanjangud with shelves, etc., may be considered by the District Board.

XI. Read docket No. 9983 of the 7th June 1905, from the Revenue Commissioner in Mysore, stating that as the establishment and management of santes have to be considered by the District Boards, under the Local Boards Regulation, II of 1902, the question of opening them at Basaral (Mandya Taluk) and Chunchanakatte (Yedatore Taluk) may be at first discussed in a meeting of the Board.

II. Read and recorded—

1. Government Proceedings No. 7431-9—Ml. 209-04, dated 23rd February 1905, approving of the revised statement showing annual quota payable by each Municipal and District Board towards the cost of Local Fund establishments in the President's offices.

2. Government Proceeding's No. (5821-31)—219-2—L. B., dated 9th January 1905, stating that Government consider that items I. Original works, II. repairs, etc., in the District Fund budgets are major heads, while the details under these are minor heads which alone the Presidents can transfer without reference to Government.

3. Government Proceedings No. 95-97-9609—L. B., (315-04)-2, dated 15th April 1905, sanctioning the District Fund budget of this district for the year 1905-06.

4. Government Proceedings No. (6307-19)-116-1—L. B., dated 24th January 1905, directing that in sanctioning District Fund works, the budget programme should be adhered to as far as possible, and that in case of deviation, Government sanction should be obtained.

III. Read Government Proceedings No. (5857)-18-4—L. B., dated 10th February 1905, observing that not only District Board members, but also the members of Taluk Boards and Union Panchayets are entitled to travelling allowance for attending the meetings of the respective Boards; also Section 22 of the rules under the Local Boards Regulation.

Resolution.—The Board unanimously resolved that the members attending the Taluk Boards and Unions may be given travelling expenses at the rate of annas four per mile for journeys by road and double railway fare for journeys by rail, as is the case with non-official members of the District Board.

IV. Read Government Proceedings No. 10253-4—L. B., No 345 of 04)-2, dated 8th May 1905, calling for the opinion of the District Board in the matter of holding a weekly fair on every Friday in the Kattanur village in the Malebennur hobli of the Harihar Sub-Taluk.

Resolution.—The Board is of opinion that as Thumbinakatte, where a fair is now held, is separated by the Tungabhadra river and the people of 20 villages adjoining Kattanur village are put to great inconvenience in the rainy season, the establishment of a "sante" at Kattanur for the benefit of these villages is necessary.

Resolution.—The pay may be raised from Rs. 3 to 5, as it is very difficult to get a man for the work for less than Rs. 5 per mensem.

VI. Read Holalkere Taluk Amildar's report No. 479, dated 15th instant, forwarding for sanction an estimate for Rs. 75 for fixing lamp posts, &c., near the Ghat Stations between Chitaldrug and Holalkere.

VII. Chitaldrug Taluk Board President's No. 186, dated 8th February 1905, forwarding for sanction an estimate for Rs. 443 for repairing the road passing over the bund of the Bharmasagar tank, for reasons stated in the resolution of the Taluk Board dated 6th February 1905.

Resolution.—The estimate for Rs. 443 is sanctioned.

VIII. Read Executive Engineer's No. 912, dated 20th instant, and other connected papers on the subject of the road to Neralkere passing over the top of Marikanave dam.

Resolution.—The Board is of opinion that the road to Neralkere need not be taken over the top of the dam, but as proposed by the Executive Engineer, Marikanave Works, it may cross the river below the dam if a culvert is built to pass the percolation water and rain water and an arch to cross the tail race of the power house.

IX. Read list of works sanctioned by the President of the District Board during the previous months.

Approved.

Letter No. 3, dated the 13th October 1904, from the President, General Rules Revision Committee.

RESOLUTION.

With the letter of 13th August 1900, read above, certain orders were issued regarding the use and significance of the distant signal, and a method was suggested for facilitating the introduction of the system desired. A draft for a modification of those portions of the General Rules, which relate to signalling, was circulated for opinion with the letter of 29th October 1900.

2. After further discussions extending over a considerable period, a meeting was held at Simla on 28th August 1903 to settle the general principles to be adhered to in signalling trains on Indian railways; and the results arrived at were circulated in the Public Works Department letter No. 13 R. T., dated 8th January 1904. These proposals have been generally accepted by all Railway Administrations, to be introduced on the various lines as the necessity for so doing becomes evident; and, as they involve certain modifications in the existing General Rules for working Indian railways by the substitution of a Stop Signal or a Warning Signal for the Distant Signal prescribed in General Rule No. 72, it becomes necessary to regularise their introduction.

3. Pending a complete revision of the General Rules, therefore, *ad interim* additions to Rule 72 were drafted by a Committee appointed to discuss the whole question, and were submitted for the consideration of the Indian Railway Conference Association and of the Government of India, and have been generally accepted with but slight modifications.

4. Amendments of Rules 72, 101 and 269, of Part I of the General Rules of 1895 for working open lines of railway.

[Enclosure to Government of India Circular No. 6 Ry., dated the 14th December 1904.]

Insertion of Rule 72A in, and amendments of Rules 101, and 269 of, Part I of the General Rules for working open lines of railway, which were promulgated with the Government of India Circular No. 6 Ry., dated the 12th March 1895.

I. *After rule 72 of Part I, insert the following :—*

"72A (1)—When specially ordered by the Governor General in Council, the "Distant Signal" shall be an absolute stop signal having a square-ended arm; and when any such order has been given the signal shall be called the "Outer Signal" or "Outer."

(2) The Driver of a running train must not pass an "Outer Signal" or any other Stop Signal that refers to him, when it is "at danger"—

(*a*) unless he has, at a previous station, received notice *in writing* specifying that the Signal is out of order, and he is also signalled past it by a man standing at the Signal, or

(*b*) unless, *after coming to a stand,* he either is given *written permission* from the Station-Master in charge of the Signal, to proceed, or is called on by a "Calling-on arm."

Explanation.—If a Driver has not received a notice *in writing* that such Stop Signal is defective he must stop, and must pay no heed to any other signal (whether a hand signal or not) that may be exhibited, until he is allowed to proceed under the authority of a calling-on arm on the same post as the defective signal, or by a *written* permission.

(3) Under any absolute stop signal (such as the "Outer Signal" above described) a second and fish-tailed arm called the "Warning Signal" or "Warner" may be placed six to seven feet below the square-ended arm.

(4) The "*Warner*" *arm is not a stop signal,* but is intended to warn Drivers of the condition of the Section ahead. It may be passed when "on," provided that the square-ended arm above it is "off," and that the Driver has his train thoroughly under control and is prepared to stop at the next Stop Signal, or where required.

(5) When a fish-tailed arm, intended to have the significance of a Warning Signal, is used on a post by itself, a fixed *green* light must be shown six to seven feet above the variable light of the fish-tailed arm, so as to indicate by night to Drivers that *it is a Warner and not a Stop Signal.*

(6) No signal arm or light may be placed in a vertical line within 14 feet above or below another arm or light referring to a train on a different track, except with the special permission of the Senior Government Inspector; and such permission must not be given without the special sanction of the Governor General in Council on any section of a railway where "Warning Signals" are in use.

(7) The significance of the various combinations of arms or lights described above, that is to say the meaning to be attached to the indications, is as follows:—

Indication.	Meaning.	Explanation.
 (*a*) Square-ended arm "off," *Single green light.*	*Proceed.*	.....
(*b*) Square-ended arm "on," *Single red light.*	*Danger.*	Stop dead and do not pass till the arm is lowered [see Rule 72 (A) (1).]
(*c*) Upper (square) arm "on," Lower (fish-tailed) arm "on," *Red over red.*	*Danger.*	Stop, and do not pass till the *upper* arm is lowered.
(*d*) Upper (square) arm "off," Lower (fish-tailed) arm "on," *Green over red.*	*Caution.*	Proceed cautiously, and *be prepared to stop* at the next Stop Signal or where required.
(*e*) Upper (square) arm "off," Lower (fish-tailed) arm "off," *Green over green.*	*All right.*	Proceed with confidence.
 (*f*) Single (fish-tailed) arm "on," *Green over red.*	*Caution.*	Same as (*d*).
 (*g*) Single (fish-tailed) arm "off," *Green over green.*	*All right.*	Same as (*e*).

(8) *Red over green* can only occur as an accident, and must be treated as a *Danger* Signal.

(9) If only one light is seen where two should be shown, the Driver must consider it a Danger Signal and stop short of it and ascertain if possible what is wrong. If he finds the square-ended arm "off," he may then proceed cautiously, being guided by the signal in advance, and must on arrival at the Station report the circumstance at once to the Station-Master."

II. *To rule* 101 *of Part I, add the following :—*

"Provided also that clause (*a*) of this rule shall not apply in any case where the square-ended "Outer Signal" referred to in rule 72A has been introduced."

III. *In the first column of the table appended to rule* 269 (1) *of Part I, after* 72 (7) *insert* 72 *A.*

Letter No. 3, dated the 13th October 1904, from the President, General Rules Revision Committee.

RESOLUTION.

With the letter of 13th August 1900, read above, certain orders were issued regarding the use and significance of the distant signal, and a method was suggested for facilitating the introduction of the system desired. A draft for a modification of those portions of the General Rules, which relate to signalling, was circulated for opinion with the letter of 29th October 1900.

2. After further discussions extending over a considerable period, a meeting was held at Simla on 28th August 1903 to settle the general principles to be adhered to in signalling trains on Indian railways; and the results arrived at were circulated in the Public Works Department letter No. 13 R. T., dated 8th January 1904. These proposals have been generally accepted by all Railway Administrations, to be introduced on the various lines as the necessity for so doing becomes evident; and, as they involve certain modifications in the existing General Rules for working Indian railways by the substitution of a Stop Signal or a Warning Signal for the Distant Signal prescribed in General Rule No. 72, it becomes necessary to regularise their introduction.

3. Pending a complete revision of the General Rules, therefore, *ad interim* additions to Rule 72 were drafted by a Committee appointed to discuss the whole question, and were submitted for the consideration of the Indian Railway Conference Association and of the Government of India, and have been generally accepted with but slight modifications.

4. In exercise, therefore, of the powers conferred by section 47, sub-sections (1) and (4) of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the Director of Railway Traffic has made the amendments specified in the annexure hereto in the General Rules for working open lines of railway which were promulgated with the Government of India's Circular No. 6 Ry., dated the 12th March 1895, and has submitted the same for the sanction of the Governor General in Council, with a view to their being adopted on all railways administered by the Government; and in exercise of the power conferred by sub-section (3) of the same section the Governor General in Council hereby sanctions the said amendments accordingly

5. The Governor General in Council also desires that the said rules may be brought to the notice of the administrations of the several railways not administered by Government, and that the Agents and Managers of those railways may be invited to submit formal applications for the adoption of the said rules.

ORDER.—Ordered, that this circular, with its enclosure, be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations, as directed by sub-section (6) of the same section; also that a copy of this circular, with its enclosure, be communicated to the Local Governments and Administrations and the officers noted in the margin, for information and guidance; and to the Governments of the United Provinces of Agra and Oudh and of the Punjab, the Honourable the Chief Commissioner of the Central Provinces, the Honourable the Resident in Mysore, the Honourable the Agents to the Governor General in Central India and Baluchistan, the Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province, and the Accountant General, Public Works Department, for information.

Amendments of Rules 72, 101 and 269, of Part I of the General Rules of 1895 for working open lines of railway.

[Enclosure to Government of India Circular No. 6 Ry., dated the 14th December 1904.]

Insertion of Rule 72A in, and amendments of Rules 101, and 269 of, Part I of the General Rules for working open lines of railway, which were promulgated with the Government of India Circular No. 6 Ry., dated the 12th March 1895.

1. *After rule 72 of Part I, insert the following :—*

"72A (1)—When specially ordered by the Governor General in Council, the "Distant Signal" shall be an absolute stop signal having a square-ended arm; and when any such order has been given the signal shall be called the "Outer Signal" or "Outer."

(2) The Driver of a running train must not pass an "Outer Signal" or any other Stop Signal that refers to him, when it is "at danger"—

(*a*) unless he has, at a previous station, received notice *in writing* specifying that the Signal is out of order, and he is also signalled past it by a man standing at the Signal, or

(*b*) unless, *after coming to a stand*, he either is given *written permission* from the Station-Master in charge of the Signal, to proceed, or is called on by a "Calling-on arm."

Explanation.—If a Driver has not received a notice *in writing* that such Stop Signal is defective he must STOP, and must pay no heed to any other signal (whether a hand signal or not) that may be exhibited, until he is allowed to proceed under the authority of a calling-on arm on the same post as the defective signal, or by a *written* permission.

(3) Under any absolute stop signal (such as the "Outer Signal" above described) a second and fish-tailed arm called the "Warning Signal" or "Warner" may be placed six to seven feet below the square-ended arm.

(4) The "*Warner*" *arm is not a stop signal,* but is intended to warn Drivers of the condition of the Section ahead. It may be passed when "on," provided that the square-ended arm above it is "off," and that the Driver has his train thoroughly under control and is prepared to stop at the next Stop Signal, or where required.

(5) When a fish-tailed arm, intended to have the significance of a Warning Signal, is used on a post by itself, a fixed *green* light must be shown six to seven feet above the variable light of the fish-tailed arm, so as to indicate by night to Drivers that *it is a Warner and not a Stop Signal.*

(6) No signal arm or light may be placed in a vertical line within 14 feet above or below another arm or light referring to a train on a different track, except with the special permission of the Senior Government Inspector; and such permission must not be given without the special sanction of the Governor General in Council on any section of a railway where "Warning Signals" are in use.

(7) The significance of the various combinations of arms or lights described above, that is to say the meaning to be attached to the indications, is as follows:—

Indication.	Meaning.	Explanation.
(*a*) Square-ended arm "off," *Single green light.*	*Proceed.*	
(*b*) Square-ended arm "on," *Single red light.*	*Danger.*	Stop dead and do not pass till the arm is lowered [see Rule 72 (A) (1).]
(*c*) Upper (square) arm "on," Lower (fish-tailed) arm "on," *Red over red.*	*Danger.*	Stop, and do not pass till the *upper* arm is lowered.
(*d*) Upper (square) arm "off," Lower (fish-tailed) arm "on," *Green over red.*	*Caution.*	Proceed cautiously, and *be prepared to stop* at the next Stop Signal or where required.
(*e*) Upper (square) arm "off," Lower (fish-tailed) arm "off," *Green over green.*	*All right.*	Proceed with confidence.
(*f*) Single (fish-tailed) arm "on," *Green over red.*	*Caution.*	Same as (*d*).
(*g*) Single (fish-tailed) arm "off," *Green over green.*	*All right.*	Same as (*e*).

(8) *Red over green* can only occur as an accident, and must be treated as a *Danger* Signal.

(9) If only one light is seen where two should be shown, the Driver must consider it a Danger Signal and stop short of it and ascertain if possible what is wrong. If he finds the square-ended arm "off," he may then proceed cautiously, being guided by the signal in advance, and must on arrival at the Station report the circumstance at once to the Station-Master."

II. *To rule* 101 *of Part I, add the following :—*

"Provided also that clause (*a*) of this rule shall not apply in any case where the square-ended "Outer Signal" referred to in rule 72A has been introduced."

III. *In the first column of the table appended to rule* 269 (1) *of Part I, after* 72 (7) *insert* 72 *A.*

OFFICE OF THE DIRECTOR OF STATISTICS IN MYSORE,
Bangalore 15th January 1905.

EXPLANATORY MEMORANDUM ON THE STATISTICS RELATING TO AREA AND YIELD OF PRINCIPAL CROPS.

The Estimates of out-turn of crops comprised in the following pages are based upon the Village Account Form No. 7 (Pahani Thaktha) appended to the Reveuue Rules of 1890.

2. In this account, the area, assessment and other particulars of each field are entered from the permanent village accounts ; and for each Survey number, the estimated area under each crop is entered by actual field inspection every year. The inspection is to be made twice in the year to correspond with cultivation and crop time. An abstract is subjoined to the account showing the aggregate estimated area under each of the fifteen principal crops enumerated in the prescribed form.

3. In 1897, the opportunity was taken to utilize this account for estimating the year's yield of the harvest under each of five selected crops *viz.*, paddy, ragi, horse-gram, cholam and sugar-cane. It was ordered that this estimate should be made by tabulating the area under each crop in the village, in a form which was prescribed as an "Enclosure to the Pahani Thaktha, Village Account Form No. 7." It was directed that as a rule, that is to say, except when the Deputy Commissioner would otherwise direct under section 10 (a) of the Mysore Famine Code, the return should correspond with the two pahani inspections, *viz.*, once before the jamabandy about the second fort-night of October while the crops are standing, and a second time after the cultivation season is over at the end of January following. Under these orders, the return is, in the first instance, prepared for each village by its Shanbhog and submitted to the Taluk office where after being examined, it is compiled for the entire Taluk and transmitted to the Deputy Commissioner who, in his turn, submits to Government an abstract statement Taluk-var for his District before the end of April every year.

4. The out-turn is estimated for each village taken separately by the Shanbhog and Patel who, from their intimate knowledge of the locality, may be relied upon to judge in this matter as well as possible for the purposes of a rough approximate estimate.

5. The out-turn is stated in annas, *viz.*, '20 annas,' '16 annas,' '8 annas' and '4 annas and less' which would respectively represent 'bumper,' 'average,' 'middling,' and 'bad harvests.'

6. The aggregate estimated area under each crop as per Pahani abstract is distributed under these four classes, and arithmetically reduced to the equivalent area under a normal, that is to say, a fair average or 16 anna crop. The standard actual yield of a normal crop per acre (16 annas) in a fairly good season is fixed for the Taluk as a whole, after careful local inquiry once for all, and not afterwards altered without the previous sanction of Government. The estimated out-turn for the entire taluk is calculated on this basis, and the results for the years from 1897-98 to 1903-04 are exhibited in the following pages.

[For full details of the method, see the following standing orders on the subject :—

T. ANANDA ROW,
Director of Statistics in Mysore.

SUMMARY OF SEASONS IN MYSORE DURING THE YEARS 1897 TO 1903.

Owing to its situation between the Eastern and Western Ghats, the Mysore Province has the benefit of both the North-East and the South-West monsoons.

The crops depend upon both these monsoons, and the produce is called "Kartikay fasal" or "Vaisaka fasal" according to the time of ripening. The former corresponds with the months of November and December, and the latter, with the months of May and June.

Subjoined is a summary of the quantity and distribution of the rainfall during the seven years to which this return relates. The figures are taken from the Rainfall Registration Reports issued by the Director of Meteorology in Mysore.

1897.

Unlike the previous year which was one of partial deficiency, the average rainfall for the whole State was 42·93 inches or 6·25 inches above the Provincial average for the past 28 years. It was more evenly distributed than in 1896 when an excess in the malnad Districts of Hassan, Shimoga and Kadur set off against a deficiency elsewhere, and made up the Provincial average.

The season was on the whole favorable, and contributed to the well-being of the agricultural community, and extension of cultivation.

The following statement gives particulars of rainfall during the year as compared with the average for 28 years :—

1898

The agricultural prospects were good, and the year's rainfall, seasonable and copious. The average rainfall amounted to 41·48 inches against an average of 36·85 during 29 years since

306

1870. Agricultural conditions were normal, but the year was marked by the outbreak of the plague in August 1898. The statement at foot gives particulars relating to rainfall :—

1899.

In this year, a scanty rainfall gave room for anxiety. The average for the whole Province was 28·92 inches which is 12·56 inches less than that for the preceding year, and 7·74 inches (=21 per cent) less than the average for 30 years since 1870.

The fall during March and April 1899 was much above the average; it was about the normal in May. These early showers led to early sowings which would eventually have resulted in a good harvest had the showers continued, but in June 1899, there was a noticeable deficiency. The falling off was very marked in July and August. The dry crops began to wither, and wet cultivation was set back in maidan parts for want of an adequate supply of water in tanks. Widespread scarcity was apprehended, and the tension was heightened by influx of immigrants from outside the State as a result of adverse seasons there. Happily, the situation assumed a favorable aspect by the copious showers which fell in September, and which covered the deficiency of the two previous months in all Maidan Taluks and brought in a sufficient supply of water to tanks everywhere. The uncertainty of seasons affected materially the area under crops, and the yield.

Subjoined is the statement showing the statistics of rainfall :—

Unlike the previous year, the rainfall recorded during the year was satisfactory, amounting to 39·46 inches against 28·92 inches in 1899 and 36·79 inches average of the past 31 years (1870—1900). The rainfall was more or less in excess of the average throughout the year except in May when the record was below the average by 1·79 inches. The fall was seasonable and well-distributed in respect of both monsoons. Under their influence, ample harvests and high prices more than compensated for the defects of the previous year.

The statement at foot gives particulars of rainfall during the year as compared with the 3 years preceding:—

1901.

During the 12 months which ended with December 1901, the rainfall throughout the State averaged 39·44 inches against 39·46 inches in the previous year and 36·86 inches for the past 32 years since 1870.

In February, there was an unusual shower which averaged 1·23 inches throughout the State. Otherwise, the monsoons were practically normal, and ample harvests and continued high prices characterized the year.

The statement at foot gives particulars of rainfall in 1901:—

1902.

308

The quantity of rainfall amounted to 38·49 inches which was less by about an inch than the year previous, and over 3½ inches in excess of the average of the 33 years preceeding since 1870.

The agricultural situation was, on the whole, fair, the harvests were good, and the prices were, if at all, somewhat easier than during the previous year.

The subjoined statement gives particulars of rainfall during the year :—

1903.

This was a record year for heavy rainfall and breaching of several tanks in the maidan taluks. The pre-monsoon showers in April were below the average. Both the South-West and the North-East monsoons were above the normal, and the fall in the month of November alone was about 3½ times the average for 34 years. This breached tanks and damaged wet crops in the Kolar District. The year's rainfall recorded 51·12 inches against 38·49 inches in 1902 and 37·14 inches during the 34 years preceding. Except for this heavy fall, agricultural conditions were favorable.

The statement at foot will give an idea of the rainfall during the year as a whole :—

During the week were sown ragi, avare and togari in Kolar, Chintamani, Mulbagal and Bagepalli; ragi in Sidlaghatta, Malur and Srinivaspur; and punaji paddy in Gudibanda. Maize in Sidlaghatta and paddy in Goribidnur are being harvested. Some lands still lie waste without being ploughed.

Cholum and gingelly in parts of Chamrajnagar and Gundlupet are being harvested. Dry lands are being ploughed in parts of Hunsur for sowing horse gram and wild gingelly.

10. Prospects of the season not fair on the whole. Rain is much needed for the standing crops. Food stocks are reported to be sufficient for the present.

11. Public health generally good.

12. Cattle healthy. Water and fodder available in all parts except in parts of Nagamangala where fodder is reported to be getting short. No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Department. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

SPECIAL AUDIT.

Pensions and Gratuities.

VERIFICATION OF SERVICES BEFORE PREPARATION OF PENSION APPLICATIONS.

To all Heads of Departments.

Circular No. 2076—*Pen.* 97, *dated* 16*th August* 1905.

Under standing orders the verification of a non-gazetted officer's services *must* be completed before a pension application is submitted in his behalf through this office, to the Government. This rule has not been always observed, and the responsibility for the delay in the disposal of pension cases often appears to rest with this office, when it really rests with those who have not completed the verification properly. This procedure will not only prevent delay in the submission of pension applications, but guard against officers being retired who may not have completed sufficient *qualifying* service entitling them to the rate of pension or gratuity recommended.

2. Any application for pension received before the verification of the applicant's services is complete, will be returned to the officer submitting it, with the remark that it cannot be received in that state as a *pension case*, but that it can be accepted as a *verification case*. The responsibility for undue delay in the disposal of an applicant's pension case after his retirement, will thus distinctly rest upon the head of his department; for nine cases out of ten are received in this office incompletely drawn up, and have necessarily to be returned more than once for furnishing all the information that is wanted before final disposal.

3. In the case of a gazetted officer, a formal verification of his services is unnecessary, except when a portion of his service has been passed in non-gazetted appointments, in which case a statement of his services should be submitted to this office before his application for pension or gratuity is drawn up.

4. These orders do not refer to *inferior officers*, and their pension papers may therefore be submitted without such verification through the controlling officers concerned; but all such applications should be accompanied by all the documents necessary for proof of the service therein recorded, such as—

(1) Service book.
(2) Last pay certificate.
(3) Medical certificate (in the case of an applicant for pension less than sixty years old).
(4) Written statements and all the collateral evidence procurable (see Article 470 (*e*), Mysore Service Regulations).

5. If this office discovers discrepancies or irregularities in applications for pension, they will be returned to the Head of office for completion.

6. In the case of inferior officers, a portion of whose services has been superior, this portion of course requires previous verification in this office before the pension application can be submitted.

7. There are therefore three classes of officers, divided thus:—

I. Superior { (1) Gazetted
(2) Non-gazetted
II. Inferior

and the application *must* be prepared in accordance with the rules above laid down according to the class to which the officer belongs.

Please note, that the above instructions will be strictly enforced from 1st October 1905, that is, the services of officers retiring on and after that date must be made subject to preliminary verification.

FORMAL APPLICATION FOR PENSION.

Non-gazetted Officers.

The head of an office before despatching an application for pension or gratuity to the Comptroller should satisfy himself that the application has been prepared in conformity with the instructions below. These directions will not in any way render a study of the Regulations unnecessary but only as a convenient and helpful index to some of the most important of the rules contained in that Code (Articles 459, 473 and 475, Mysore Service Regulations).

Applications for Pension or Gratuity should always be regarded as urgent and not be treated as papers to be dealt with in ordinary course; and cannot be refused to be submitted by the head of an office on behalf of a retired officer, even though *prima facie* no retiring allowance is admissible to him under the rules. Government reserves to itself the right to grant or reject applications for pensions.

Applicant must be given the option of electing either and the fact of the choice noted in the application.

9. *History of Services.*—(*a*) Give dates, month and year of the various appointments, promotions and cessations. For the purpose of adding together broken periods a month is reckoned as thirty days, (*b*) when applicant is acting, state his substantive appointment and enter the several rates of acting allowances separately from pay, (*c*) all periods not reckoned as service should be distinguished and reasons for their exclusion given in the remarks column.

10. *Identification marks.*—(*a*) Specify a few conspicuous marks, at least four if possible, (*b*) record applicant's finger-prints on the application, and on a form of P. P. O., in the manner laid down in Government Proceedings, No. 6667-706—R. F. 18-99, dated 21st March 1900.

No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

Pensions and Gratuities.

VERIFICATION OF SERVICES BEFORE PREPARATION OF PENSION APPLICATIONS.

To all Heads of Departments.

Circular No. 2076—*Pen.* 97, *dated* 16*th August* 1905.

Under standing orders the verification of a non-gazetted officer's services *must* be completed before a pension application is submitted in his behalf through this office, to the Government. This rule has not been always observed, and the responsibility for the delay in the disposal of pension cases often appears to rest with this office, when it really rests with those who have not completed the verification properly. This procedure will not only prevent delay in the submission of pension applications, but guard against officers being retired who may not have completed sufficient *qualifying* service entitling them to the rate of pension or gratuity recommended.

2. Any application for pension received before the verification of the applicant's services is complete, will be returned to the officer submitting it, with the remark that it cannot be received in that state as a *pension case*, but that it can be accepted as a *verification case*. The responsibility for undue delay in the disposal of an applicant's pension case after his retirement, will thus distinctly rest upon the head of his department; for nine cases out of ten are received in this office incompletely drawn up, and have necessarily to be returned more than once for furnishing all the information that is wanted before final disposal.

3. In the case of a gazetted officer, a formal verification of his services is unnecessary, except when a portion of his service has been passed in non-gazetted appointments, in which case a statement of his services should be submitted to this office before his application for pension or gratuity is drawn up.

4. These orders do not refer to *inferior officers*, and their pension papers may therefore be submitted without such verification through the controlling officers concerned; but all such applications should be accompanied by all the documents necessary for proof of the service therein recorded, such as—

(1) Service book.
(2) Last pay certificate.
(3) Medical certificate (in the case of an applicant for pension less than sixty years old).
(4) Written statements and all the collateral evidence procurable (see Article 470 (*e*), Mysore Service Regulations).

5. If this office discovers discrepancies or irregularities in applications for pension, they will be returned to the Head of office for completion.

6. In the case of inferior officers, a portion of whose services has been superior, this portion of course requires previous verification in this office before the pension application can be submitted.

7. There are therefore three classes of officers, divided thus:—

I. Superior { (1) Gazetted
(2) Non-gazetted
II. Inferior

and the application *must* be prepared in accordance with the rules above laid down according to the class to which the officer belongs.

Please note, that the above instructions will be strictly enforced from 1st October 1905, that is, the services of officers retiring on and after that date must be made subject to preliminary verification.

FORMAL APPLICATION FOR PENSION.

Non-gazetted Officers.

The head of an office before despatching an application for pension or gratuity to the Comptroller should satisfy himself that the application has been prepared in conformity with the instructions below. Applications for Pension or Gratuity should always be regarded as urgent and not be treated as papers to be dealt with in ordinary course; and cannot be refused to be submitted by the head of an office on behalf of a retired officer, even though *prima facie* no retiring allowance is admissible to him under the rules. Applicant must be given the option of electing either and the fact of the choice noted in the application.

For the purpose of adding together broken periods a month is reckoned as thirty days, (*b*) when applicant is acting, state his substantive appointment and enter the several rates of acting allowances separately from pay, (*c*) all periods not reckoned as service should be distinguished and reasons for their exclusion given in the remarks column.

10. *Identification marks.*—(*a*) Specify a few conspicuous marks, at least four if possible, (*b*) record applicant's finger-prints on the application, and on a form of P. P. O., in the manner laid down in Government Proceedings No. 6667-706—R. F. 18-99, dated 21st March 1900.

(1) Government Order No. 11020-8—L. B. (193-04)-4, dated the 31st May 1905, declining to sanction the levy of a separate rate of tax on shops in Unions instead of the low rate of house tax, as it is opposed to the existing law.

No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

REGULATION No. IV OF 1905.

(PASSED ON THE 10TH DAY OF AUGUST 1905.)

A Regulation further to amend the Mysore Military Regulation, 1899.

Preamble.

Whereas it is expedient further to amend the Mysore Military Regulation, II of 1899, as amended by Regulation V of 1900, IV of 1901 and one of 1905; His Highness the Maharaja is pleased to enact as follows:—

Addition of paragraphs 53A to 53C to the rules for the punishment of crime.

1. After paragraph 53 of the rules for the punishment of crime in the Mysore Imperial Service Cavalry and Transport, the following paragraph shall be inserted, namely:—

Summoning witnesses and production of documents.

"53A (1) The President of a Court-Martial may, by summons under his hand, require the attendance before the Court, at a time and place to be mentioned in the summons, of any person either to give evidence or to produce any document or other thing.

"(2) In the case of a witness amenable to Military authority, the summons shall be sent to his superior officer and such officer shall serve it upon him accordingly.

"(3) In the case of any other witness, the summons shall be sent to the Magistrate within whose jurisdiction he may be or reside, and such Magistrate shall give effect to the summons as if the witness were required in the Court of such Magistrate.

"(4) When a witness is required to produce any particular document or other thing in his possession or power, the summons shall describe it with convenient certainty.

"(5) Nothing in this paragraph shall be deemed to affect the Indian Evidence Act, 1872, Sections 123 and 124, or to apply to any letter, post card, telegram or other document in the custody of the Postal or Telegraph authorities.

"(6) If any document in such custody is, in the opinion of any District Magistrate, the Chief Court, or any Court of Session, wanted for the purpose of any Court-Martial, such Magistrate or Court may require the Postal or Telegraph authorities, as the case may be, to deliver such document to such person as such Magistrate or Court may direct.

"(7) If any such document is, in the opinion of any other Magistrate or of any District Superintendent of Police, wanted for any such purpose, he may require the Postal or Telegraph Department, as the case may be, to cause search to be made for and to detain such document pending the orders of any such District Magistrate or Court.

Contempts of Court.

"53 B. (1) Any witness duly summoned, and any person who commits any contempt of Court in the presence of a Court-Martial, or any offence described in clauses (27), (38) and (39) of paragraph 2, shall, if subject to these rules, be proceeded against as the Court may direct.

"(2) If any such witness or person is not so subject, the President of the Court-Martial may certify the offence under his hand to the Court of any Magistrate within the local limits of whose jurisdiction it was committed, and the Magistrate may thereupon take cognizance of the case, and, after hearing anything which the accused may desire to say, dispose of it as if the offence had been committed in a proceeding in a Court of such Magistrate.

Privileges of persons attending Courts-Martial.

"53 C. (1) No President or member of a Court-Martial, no party to any proceeding before a Court-Martial, or his legal practitioner or agent, and no witness acting in obedience to a summons to attend a Court-Martial, shall, while proceeding to, attending on or returning from, a Court-Martial, be liable to arrest under civil or revenue process.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899 :—

RESOLUTION.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country, and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor General in Council has decided that it is necessary to press upon Indian students and others visiting England, the desirability of providing themselves before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native

Pensions and Gratuities.

VERIFICATION OF SERVICES BEFORE PREPARATION OF PENSION APPLICATIONS.

To all Heads of Departments.

Circular No. 2076—*Pen.* 97, *dated* 16*th August* 1905.

Under standing orders the verification of a non-gazetted officer's services *must* be completed before a pension application is submitted in his behalf through this office, to the Government. This rule has not been always observed, and the responsibility for the delay in the disposal of pension cases often appears to rest with this office, when it really rests with those who have not completed the verification properly. This procedure will not only prevent delay in the submission of pension applications, but guard against officers being retired who may not have completed sufficient *qualifying* service entitling them to the rate of pension or gratuity recommended.

2. Any application for pension received before the verification of the applicant's services is complete, will be returned to the officer submitting it, with the remark that it cannot be received in that state as a *pension case*, but that it can be accepted as a *verification case*. The responsibility for undue delay in the disposal of an applicant's pension case after his retirement, will thus distinctly rest upon the head of his department; for nine cases out of ten are received in this office incompletely drawn up, and have necessarily to be returned more than once for furnishing all the information that is wanted before final disposal.

3. In the case of a gazetted officer, a formal verification of his services is unnecessary, except when a portion of his service has been passed in non-gazetted appointments, in which case a statement of his services should be submitted to this office before his application for pension or gratuity is drawn up.

4. These orders do not refer to *inferior officers*, and their pension papers may therefore be submitted without such verification through the controlling officers concerned; but all such applications should be accompanied by all the documents necessary for proof of the service therein recorded, such as—

(1) Service book.
(2) Last pay certificate.
(3) Medical certificate (in the case of an applicant for pension less than sixty years old).
(4) Written statements and all the collateral evidence procurable (see Article 470 (*e*), Mysore Service Regulations).

5. If this office discovers discrepancies or irregularities in applications for pension, they will be returned to the Head of office for completion.

6. In the case of inferior officers, a portion of whose services has been superior, this portion of course requires previous verification in this office before the pension application can be submitted.

7. There are therefore three classes of officers, divided thus:—

I. Superior { (1) Gazetted / (2) Non-gazetted
II. Inferior

and the application *must* be prepared in accordance with the rules above laid down according to the class to which the officer belongs.

Please note, that the above instructions will be strictly enforced from 1st October 1905, that is, the services of officers retiring on and after that date must be made subject to preliminary verification.

FORMAL APPLICATION FOR PENSION.

Non-gazetted Officers.

The head of an office before despatching an application for pension or gratuity to the Comptroller should satisfy himself that the application has been prepared in conformity with the instructions below. These directions will not in any way render a study of the Regulations unnecessary but only as a convenient and helpful index to some of the most important of the rules contained in that Code (Articles 469, 473 and 475, Mysore Service Regulations).

Applications for Pension or Gratuity should always be regarded as urgent and not be treated as papers to be dealt with in ordinary course; and cannot be refused to be submitted by the head of an office on behalf of a retired officer, even though *prima facie* no retiring allowance is admissible to him under the rules. Government reserves to itself the right to grant or reject applications for pensions.

4. *Character and Conduct.*—State merely good, bad, fair, or indifferent without remarks, which should be made only when absolutely necessary to a right understanding of the case.

5. *Compensation Pension.*—State why employment not found elsewhere, and what the amount of savings effected is.

6. *Delay.*—Explain delay in submission of application beyond a month.

8. *Gratuity.*—(*a*) Inferior servants having sufficient superior service for pension, are entitled to gratuity for inferior service though retired at fifty-five years of age, (*b*) adding superior service to inferior for combined pension are not entitled to gratuity for the former, (*c*) entitled to separate gratuity for superior service in addition to gratuity for inferior service. Applicant must be given the option of electing either and the fact of the choice noted in the application.

9. *History of Services.*—(*a*) Give dates, month and year of the various appointments, promotions and cessations. For the purpose of adding together broken periods a month is reckoned as thirty days, (*b*) when applicant is acting, state his substantive appointment and enter the several rates of acting allowances separately from pay, (*c*) all periods not reckoned as service should be distinguished and reasons for their exclusion given in the remarks column.

10. *Identification marks.*—(*a*) Specify a few conspicuous marks, at least four if possible, (*b*) record applicant's finger-prints on the application, and on a form of P. P. O., in the manner laid down in Government Proceedings No. 6667-706—R. F. 18-99, dated 21st March 1900.

11. *Leave*—(*a*) Irregularly granted—State officer responsible and amount of allowances overdrawn, (*b*) of all kinds—(save casual) to be entered in detail in service book, (*c*)—to inferior servants—all periods of duly sanctioned leave count, (*d*) without allowances—when treated as qualifying, specify in separate memorandum with particulars;—(1) extent to which it could have been granted with allowance; (2) how much of it actually availed of; and (3) the leave taken without allowances.

12. *Last pay certificate* should invariably accompany the application.

13. *Medical certificate*—(*a*) if granted after applicant has ceased to do duty, state cause of delay, (*b*) give reasons in case of retention in service after grant of the certificate, (*c*) should invariably accompany the application, (*d*) should state particulars required under Article 294 (*b*) (*c*) in respect of applicants *under fifty-five years of age* and the explanation of the head of office should be given under five on the third page of the application, (*e*) should be granted only by a Medical officer not inferior in rank to an Assistant Surgeon, and should be one belonging to the same district, otherwise explanation must be given.

2. Read.—Proposal to re-entertain a watchman at the Dharmambudhi tank at Rs. 7 a month.

Resolution.—The Board abide by the last resolution on the subject and decline to sanction the post of the watchman.

3. Read Government Proceedings No. 147—Ml. (620-04)-2, dated the 4th July 1905, sanctioning the rate of slaughter-house fee being increased from two to three annas per sheep, with effect from 1st July 1905.

Resolution.—Recorded.

4. Read General and Revenue Secretary's docket No. 177—Ml. (430-04)-17, dated the 5th July 1905, forwarding, for opinion, a copy of the Senior Surgeon and Sanitary Commissioner's letter dated the 22nd June 1905, bringing to the notice of Government the defective state of the sanitary staff of the City.

Resolution.—No doubt the Sanitary Commissioner's proposal to replace experienced uncertificated Sanitary Inspectors by duly certificated young men is sound; but the Board hesitate to introduce the change suddenly unless the Government are prepared to provide experienced certificated men. However, the Board are prepared to introduce the change gradually.

5. Read letter No. 1095, dated the 9th June 1905, from the President of the Municipal Commission, Civil and Military Station, enquiring whether the City Municipal Board is prepared to recognize licenses granted by the Station Municipality to carts and animals kept outside the Station limits.

Resolved that the President be authorized to reply to the communication in consultation with the legal members of the Board.

6. Read letter No. 3864, dated the 16th June 1905, from the President of the Mysore City Municipality, requesting a monthly grant of Rs. 30 to the Deaf, Dumb and Blind School in Mysore, being the only institution of the kind in the Province.

Resolved that Board regrets its inability to offer any contribution.

7. Read.—Election of members for the ensuing Dasara Assembly at Mysore.

Resolved that the following Commissioners be elected to represent the Board at the next Dasara Representative Assembly :—

Messrs. B. V. Ramaswamy Chetty, B. K. Garudachar, N. Ramabhadriah and I. Bronson.

8. Read Government Proceedings No. 11631-36—Ml. (536-04)-2, dated the 20th June 1905, sanctioning the budget estimates of the Bangalore City Municipality for 1905-06.

Resolution.—Recorded.

9. Read Government Proceedings No. 589-90—Ml. (418-04)-8, dated the 12th July 1905, observing that the action of the Board in submitting a resolution that Mr. Palpu is not guilty of any neglect of duty in connection with the collection of scavenging cess is quite uncalled for.

Resolution.—Recorded.

10. Read.—Levy of toll on motor cars and motor bicycles.

Resolved that the same rate be levied as elsewhere, to be brought into force from 1st January next.

A. S. NAGAVKAR,
President.

(PASSED ON THE 10TH DAY OF AUGUST 1905.)

A Regulation further to amend the Mysore Military Regulation, 1899.

Preamble.

Whereas it is expedient further to amend the Mysore Military Regulation, II of 1899, as amended by Regulation V of 1900, IV of 1901 and one of 1905; His Highness the Maharaja is pleased to enact as follows:—

Addition of paragraphs 53A to 53C to the rules for the punishment of crime.

1. After paragraph 53 of the rules for the punishment of crime in the Mysore Imperial Service Cavalry and Transport, the following paragraph shall be inserted, namely:—

Summoning witnesses and production of documents.

"53A (1) The President of a Court-Martial may, by summons under his hand, require the attendance before the Court, at a time and place to be mentioned in the summons, of any person either to give evidence or to produce any document or other thing.

"(2) In the case of a witness amenable to Military authority, the summons shall be sent to his superior officer and such officer shall serve it upon him accordingly.

"(3) In the case of any other witness, the summons shall be sent to the Magistrate within whose jurisdiction he may be or reside, and such Magistrate shall give effect to the summons as if the witness were required in the Court of such Magistrate.

"(4) When a witness is required to produce any particular document or other thing in his possession or power, the summons shall describe it with convenient certainty.

"(5) Nothing in this paragraph shall be deemed to affect the Indian Evidence Act, 1872, Sections 123 and 124, or to apply to any letter, post card, telegram or other document in the custody of the Postal or Telegraph authorities.

"(6) If any document in such custody is, in the opinion of any District Magistrate, the Chief Court, or any Court of Session, wanted for the purpose of any Court-Martial, such Magistrate or Court may require the Postal or Telegraph authorities, as the case may be, to deliver such document to such person as such Magistrate or Court may direct.

"(7) If any such document is, in the opinion of any other Magistrate or of any District Superintendent of Police, wanted for any such purpose, he may require the Postal or Telegraph Department, as the case may be, to cause search to be made for and to detain such document pending the orders of any such District Magistrate or Court.

"(2) If any such witness or person is not so subject, the President of the Court-Martial may certify the offence under his hand to the Court of any Magistrate within the local limits of whose jurisdiction it was committed, and the Magistrate may thereupon take cognizance of the case, and, after hearing anything which the accused may desire to say, dispose of it as if the offence had been committed in a proceeding in a Court of such Magistrate.

Privileges of persons attending Courts-Martial.

To

All Heads of Departments and Offices.
All Treasury Officers and Officers privileged to draw pay abstracts.

The form of supplemental bill, *viz.*, Financial 19 A, used by many offices for arrear pay and allowances, besides being obsolete, is also defective, as it does not provide separate columns for noting the information required by the Civil Account Code for purposes of audit, and has not got the disburser's, etc., certificates, printed on them.

The Comptroller has the honor to request therefore that all officers privileged to draw pay abstracts will be so good as to draw all arrear claims also on the ordinary pay bill form.

From the 1st of September 1905, the Treasury Officers will refuse to make payments on bills prepared on this obsolete form (Financial 19 A).

The Superintendent, Government Press, is requested not to supply this form to any office hereafter.

Circular No. 2079—*T. A. D., dated* 5*th September* 1905.

To

All Heads of Departments and Offices.

The Comptroller has the honor to request that Heads of Departments will be so good as to furnish this office at a very early date with a memo showing separately the amount spent by them and the offices subordinate to them on account of fees for registration and insurance of parcels for delivery within the State during the past official year, to enable this office to report the same to Government as required by para 2 of Government Proceedings No. 5612-51—Mis. 900, dated 14th October 1902.

N. G. BASU,
Comptroller.

SPECIAL AUDIT DEPARTMENT.

To

The Deputy Commissioners, Treasury Department, of all Districts and Officer in charge, State Huzur Treasury, and all Heads of Departments.

Circular No. 2080—*Bills* 289, *dated* 6*th September* 1905.

REVENUE AND RECEIPTS PAID INTO ONE TREASURY ON ACCOUNT OF ANOTHER.

Instances of issues of P. S. T. Receipts for Revenue and Receipts received in one taluk on account of another, having been resorted to rather freely of late, involving needless additional

work on the Treasuries, the Comptroller, in consultation with the Heads of several Departments, has the honor to prescribe the procedure noted below to be followed in future as regards Revenue and Receipts paid in one Treasury on account of another.

1. *Registration Memo Fees.*—These remittances should be credited at once to the proper head in the Treasury at which they are tendered, the District Registrars on account of whom these amounts are received, being given the necessary intimation to make needful entries in their accounts.

2. *Sale Proceeds of Timber, Sandalwood, etc.*—These sums should be accompanied by a requisition from the Assistant Conservator or other District Forest Officers by whom the sales were conducted. The amounts should be credited at once to "Forest Remittances" and advice sent to the District Forest Officer concerned, clearly specifying the name of the purchaser or other person from whom the amounts were tendered and also the number and date of the advice or remittance chellan issued by the District Forest Officer to enable the latter to effect necessary entries in his books.

3. *Land Revenue.*—Chellans in duplicate containing all the particulars required in the Government Notification No. R. 2197—L. R. 34-04-3, dated 7th September 1904, should invariably accompany when any Land Revenue belonging to one district is tendered for receipt into a Government Treasury of another district. The sums should then be credited to the proper head of account, due intimation of the credit being sent to the Amildar of the taluk concerned.

In the case mentioned above, the Demand Collection and Balance statements of the taluk or district to which the Revenue belongs will include the amounts collected elsewhere on its behalf, while the taluk or district in which the monies are actually received and credited will omit the same from its D. C. B. Statements. As there will be differences between Treasury credits and D. C. B. Statements in both the Districts, the information furnished by the receiving Treasury will afford materials for foot notes being inserted explanatory of such differences between the D. C. B. and the Treasury credits.

Note.—This does not contravene the provisions of Article 143, C. A. C., Vol. I, regarding the issue of P. S. T. R. for Land Revenue and Cesses. But applications for issue of Remittance Transfer Receipts should be accompanied with chellans in duplicate furnishing full particulars of the Revenue sought to be remitted.

4. *Sums tendered in Adjustment of Advances.*—The practice of issuing P. S. T. Receipts for sums tendered in adjustment of advances, except in the case of permanent advances, should be discontinued. Chellans tendered with such sums should clearly specify whether the original advance was made from permanent advance or otherwise. The chellans should also furnish the name of the Treasury from which, and the month in which, the original advance was drawn, the aggregate amount thereof, and the balance if any due after deducting the amount now tendered. The amounts so tendered should be credited to "advances recoverable" or other appropriate heads concerned and a schedule of such sums with full particulars and the original place of debit should accompany the Treasury Cash Accounts monthly.

5. To facilitate giving of the intimation above referred to to other taluks, &c., the use of counterfoil book in the following form is suggested.

Circular No. 2079—*T. A. D., dated* 5*th September* 1905.

To

All Heads of Departments and Offices.

The Comptroller has the honor to request that Heads of Departments will be so good as to furnish this office at a very early date with a memo showing separately the amount spent by them and the offices subordinate to them on account of fees for registration and insurance of parcels for delivery within the State during the past official year, to enable this office to report the same to Government as required by para 2 of Government Proceedings No. 5612-51—Mis. 900, dated 14th October 1902.

N. G. BASU,
Comptroller.

SPECIAL AUDIT DEPARTMENT.

To

The Deputy Commissioners, Treasury Department, of all Districts and Officer in charge, State Huzur Treasury, and all Heads of Departments.

Circular No. 2080—*Bills* 289, *dated* 6*th September* 1905.

REVENUE AND RECEIPTS PAID INTO ONE TREASURY ON ACCOUNT OF ANOTHER.

Instances of issues of P. S. T. Receipts for Revenue and Receipts received in one taluk on account of another, having been resorted to rather freely of late, involving needless additional

work on the Treasuries, the Comptroller, in consultation with the Heads of several Departments, has the honor to prescribe the procedure noted below to be followed in future as regards Revenue and Receipts paid in one Treasury on account of another.

1. *Registration Memo Fees.*—These remittances should be credited at once to the proper head in the Treasury at which they are tendered, the District Registrars on account of whom these amounts are received, being given the necessary intimation to make needful entries in their accounts.

2. *Sale Proceeds of Timber, Sandalwood, etc.*—These sums should be accompanied by a requisition from the Assistant Conservator or other District Forest Officers by whom the sales were conducted. The amounts should be credited at once to "Forest Remittances" and advice sent to the District Forest Officer concerned, clearly specifying the name of the purchaser or other person from whom the amounts were tendered and also the number and date of the advice or remittance chellan issued by the District Forest Officer to enable the latter to effect necessary entries in his books.

3. *Land Revenue.*—Chellans in duplicate containing all the particulars required in the Government Notification No. R. 2197—L. R. 34-04-3, dated 7th September 1904, should invariably accompany when any Land Revenue belonging to one district is tendered for receipt into a Government Treasury of another district. The sums should then be credited to the proper head of account, due intimation of the credit being sent to the Amildar of the taluk concerned.

In the case mentioned above, the Demand, Collection and Balance statements of the taluk or district to which the Revenue belongs will include the amounts collected elsewhere on its behalf, while the taluk or district in which the monies are actually received and credited will omit the same from its D. C. B. Statements. As there will be differences between Treasury credits and D. C. B. Statements in both the Districts, the information furnished by the receiving Treasury will afford materials for foot notes being inserted explanatory of such differences between the D. C. B. and the Treasury credits.

Note.—This does not contravene the provisions of Article 143, C. A. C., Vol. I, regarding the issue of P. S. T. R. for Land Revenue and Cesses. But applications for issue of Remittance Transfer Receipts should be accompanied with chellans in duplicate furnishing full particulars of the Revenue sought to be remitted.

4. *Sums tendered in Adjustment of Advances.*—The practice of issuing P. S. T. Receipts for sums tendered in adjustment of advances, except in the case of permanent advances, should be discontinued. Chellans tendered with such sums should clearly specify whether the original advance was made from permanent advance or otherwise. The chellans should also furnish the name of the Treasury from which, and the month in which, the original advance was drawn, the aggregate amount thereof, and the balance if any due after deducting the amount now tendered. The amounts so tendered should be credited to "advances recoverable" or other appropriate heads concerned and a schedule of such sums with full particulars and the original place of debit should accompany the Treasury Cash Accounts monthly.

5. To facilitate giving of the intimation above referred to to other taluks, &c., the use of counterfoil book in the following form is suggested.

(2) Government Order No. 333—L. B. (262-04)-2 of the 8th July 1905, stating that the mohatarfa revenue on carts and oil-mills in "Unions" cannot be made over to the District Funds.

(3) Government Order No. 622—L. B. (21-04)-6 of the 12th July 1905, directing that provision for constructing a third class travellers' bungalow at the French Rocks Railway Station should be made in the District Fund budget for 1906-07.

II. Read docket No. 994—L. B. (20-05)-2 of the 25th July 1905, from the Secretary to the Government of Mysore in the Revenue and General Department, requesting that the statement of estimated income and expenditure of the "Bellur Union" in the Nagamangala Taluk may be placed before the District Board.

Resolved that it be passed and submitted to Government for sanction.

III. Docket No. 1084—L. B. (31-04)-1 of the 27th July 1905, from the same officer, regarding the construction of a bridge across the Gundal river and opening a road towards Bachahalli, Sivapur and other places.

Resolution.—The Board is of opinion that these works are not necessary.

IV. Docket No. 1123—L. B. (32-05)-1 of the 28th July 1905, from the same officer, referring for the opinion of the District Board, the question of opening a cart-track from Seringapatam-Sivasamudram road to join the Mandya-Bannur road at Kottatti.

Resolution.—The road in question is not of very great necessity, and considering the present condition of the existing District Fund roads, the Board do not think it advisable to open more.

IV-A. Docket No. 1124—L. B. (34-05)-1 of the 28th July 1905, from the same officer, referring for opinion of the District Board, the question of making a road from Chamrajnagar to Honganur.

Resolved that the present existing cart-track is sufficient.

V. Docket No. 1125—L. B. (35-05)-1 of the 28th July 1905, from the same officer, referring for the information of the District Board, the question of completing the Balagola-Balamuri road.

Resolution.—The Assistant Commissioner of the French Rocks Division having explained to the Board that no improvement was possible, and that what is required is only a better conservancy of the drinking-water pond in question, the Municipal Board of Malvalli might be asked to do needful action in the matter, with the funds at its disposal.

VII. Docket No. 1165—L. B. (45-04)-1 of the 29th June 1905, from the same officer, referring for the consideration of the District Board the following representations of the Dasara Representative Assembly of 1904:—

Resolution.—(1) No more roads are at present needed in this part of the country.

(2) Talkad-Malvalli road there is no doubt that this a very short cut, but as a cart-track at present exists, there is no great necessity for a new road.

(3) As the T.-Narsipur Hospital Assistant is visiting Talkad once a week, there is no necessity for a hospital at present.

(4) An estimate for Rs. 1,394 for constructing a 4th class musafirkhana at Talkad, has been sanctioned by Government in June 1905.

Resolution.—The Board are of opinion that there is no necessity for this road.

XI. Read letter No. 4826 of the 22nd July 1905, from the Chief Engineer in Mysore stating that it is not desirable to place the annual repairs of District Fund gravelled roads under the charge of the Revenue Department.

Resolution.—The Board regrets the view taken by the Chief Engineer on the subject and would beg to suggest that the proposal of the Board contained in its resolution dated the 12th June 1905, may be given a fair trial in one or two selected taluks.

XII. Read resolution of the Nanjangud Taluk Board, dated the 29th July 1905, stating that it is desirable to open a shandy at Konanur, as it will be useful not only to the inhabitants of some eight villages, but also to some in the Chamrajnagar Taluk.

(3) Revetting the side of the Kapila river near Anandeswaraswami temple at a cost of Rs. 1,000.

The Board is of opinion that these works are necessary, but would request the Executive Engineer to look into the matter and submit estimates. The Muzrai Secretary should also be requested to allot funds from the Muzrai grant towards the cost of Nos. 2 and 3.

XXI. The following proposals of Mr. Nadiga Krishnappa, member from the Krishnarajpete Taluk, were then taken up :—

(1) Repairing the bathing ghat to the Hemavati river at Bennachikatte.
(2) Constructing a musafirkhana at Kotaguhalli on the Nagamanagla-Krishnarajpete.

Resolution.—The first work is not necessary. The second one may be taken into consideration when the question of the head-quarters of the present Krishnarajpete Division is settled. The third work will be considered after the completion of the cistern work alluded to in para XIII.

XXII. Read the list of District Fund incomplete works of the Revenue Department, requiring appropriation of funds to the extent of Rs. 26,890-5-0.

Resolution.—The Board note with regret the very large lapses, which they attribute to a great extent to the indifference of work inspectors and to the laxity of supervision on the part of the Amildars, and trust that a great improvement will be shown during the current year.

XXIII. Read office memo regarding the pay of B. Lakshman Rao, supernumerary clerk of the Local Fund Branch of the late French Rocks Sub-Division, for eighteen days in June 1905, when he was without any appointment.

Resolved that the same be passed.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

10. Prospects of the season fair. Food stocks sufficient.

11. Public health generally good.

12. Cattle healthy. Water and pasture available. Fodder insufficient in Sira.

MYSORE.

8. Market fairly well supplied.

9. Standing crops, such as ragi, cholum, ballar, dall, castor, kulthi, black and green grams, cotton, mulberry and harka are reported to be fair in most parts; and they are withering for want of rain in parts of Hunsur, Yedatore, Mandya, Krishnarajpete and Nagamangala. Paddy and sugar-cane crops under tanks and channels are reported to be good. Paddy crops in the Bilagere hobli of the Nanjangud Taluk are effected by "*Kemmalu*" disease. Transplantation of paddy seedlings is going on in parts of Malvalli. The yield of the harvested ragi crop is estimated at 12 annas in Hunsur and T.-Narsipur.

10. Prospects of the season fair on the whole. More rain is wanted for the standing dry crops withering in several taluks. Food stocks sufficient.

11. Public health generally good except for plague in a few parts.

12. Cattle healthy except in parts of Yedatore where they are weak for want of sufficient fodder. Water sufficient except in parts of Mandya and Malvalli where the supply is little. Fodder generally available.

HASSAN.

8. Market well supplied, though prices are high.

9. Standing crops, *viz.*, paddy, ragi, horse gram, ballar, pigeon-pea, chillies, etc., in Arkalgud and Alur are in good condition. Elsewhere they are not thriving for want of rain. Caterpillars are causing damage to avare and togari in parts of Hassan. In Belur, kulthi and

wild gingelly seeds sown did not germinate for want of moisture. Paddy under tanks in some taluks including Manjarabad and Belur and the Malnad parts of Arkalgud and on a high level generally is in need of rain. Black and green grams in Arkalgud; black gram, horse gram, gingelly and tadagani in Alur are being sown. Gidda-ragi in Hassan and Channarayapatna; gidda-ragi, cholum, same, navane in Hole-Narsipur; and gidda-ragi, mustard and navane in Arkalgud are being harvested.

The following is the probable outturn :—

Hassan ...	Gidda-ragi (under harvest)	8 to 12 annas.	
Belur	Do (harvested)	8 annas.	
Arsikere	Standing crops	2 to 12 annas	if more showers fall.
Channarayapatna	Do	12 annas	
Hole-Narsipur	First sown crops	8 to 12 annas.	
	Latterly sown	8 to 10 annas.	
Arkalgud	Ragi (being harvested)	10 to 12 annas.	
	Mustard (being harvested)	4 to 8 do	
	Navane (being harvested)	6 to 8 do	
Alur	Gidda-ragi (being harvested)	16 annas.	

10. Prospects fair. More rain is wanted everywhere. Food stocks available.

11. Public health generally good.

12. Cattle generally healthy. Water available. Fodder available in all the taluks except in Channarayapatna and Arsikere) and scanty in the Hassan Taluk. Cattle are being fed on jawar stalks and green grass in Hassan and Channarayapatna Taluks.

SHIMOGA.

8. Market well supplied though prices are high.

9. Transplantation of paddy is almost over in the malnad taluks. Of the standing crops chillies, ragi, great millet and sugar-cane are in good condition and require rain. Paddy wants rain badly. The picking of cardamom has begun in the Sagar Taluk.

10. Prospects pretty fair for dry crops. Rain is still insufficient for rice. Food stocks are sufficient.

11. Public health generally good. Plague prevails in parts of Honnali, Shikarpur and Sorab, and Cholera in parts of Shimoga, Sorab, Sagar and Tirthahalli.

12. Cattle healthy. Water available for the present. Scarcity of fodder continues to be felt in the Honnali Taluk.

KADUR.

8. Market fairly supplied.

9. Kulthi is being sown in Tarikere. Transplantation of paddy is still going on in Koppa and Yedahalli, and of ragi in Mudgere. Ragi and kulthi are being sown in Kadur. Standing crops of sugar-cane and coffee are good in Koppa; paddy, ragi, sugar-cane, ballar, black gram in Chikmagalur are badly in need of rain; the crops in Tarikere and Kadur are fading for want of rain. Ragi in Chikmagalur, gingelly in Tarikere and cholum and gingelly in Kadur are being harvested. In some parts of Koppa, Yedahalli and Sringeri arecanut crop is affected by "*kole roga.*" The outturn of harvests of gingelly and cholum in the Yagati hobli of the Kadur Taluk is reported to be a four and twelve anna crop respectively.

10. Prospects not encouraging. More rain is needed in Chikmagalur, Tarikere and Kadur. Food stocks available and sufficient in all the taluks.

11. Public health good.

12. Cattle healthy. Fodder available except at Kadur where it is scanty.

CHITALDRUG.

8. Market well supplied.

9. Kulthi was sown during the week in some parts of the Hiriyur Taluk. Standing crops are reported to be in good condition except in parts of Challakere, Hosdurga, Hiriyur and Harihar where they are withering for want of rain. Sessamum, black and green gram in the Davangere Taluk were harvested.

10. Prospects of the season fair. Food stocks available.

11. Public health generally good.

12. Cattle healthy. More rain is wanted to help the growth of pasture. Fodder is procurable in limited quantities.

3. The orders contained in the Home Department Notification No. 1309, dated the 12th September 1904, are hereby cancelled.

(2) that no person shall be permitted to embark for such purpose at such port unless he has been kept under observation in a place appointed for the purpose at or near the port of embarkation until such time as the Medical officer in charge shall be satisfied that all risk of such person conveying the infection of plague has completely abated;

(3) that no passage tickets for the Hedjaz shall be sold except at the place appointed for the detention of intending pilgrims under observation.

5. Although they have decided that, subject to the foregoing precautions, the pilgrimage to the Hedjaz may be permitted, the Government of India think it necessary to repeat the warning given last year, that intending pilgrims will be well advised in deferring the fulfilment of their purpose until another season in view specially of the stringent quarantine rules imposed by the Turkish Government and of the inconvenience and harassment to which it is likely that they will be subjected on arriving in Arabia."

FINANCIAL DEPARTMENT.

SPECIAL AUDIT DEPARTMENT.

To

The Deputy Commissioners, Treasury Department, of all Districts and Officer in charge, State Huzur Treasury, and all Heads of Departments.

Circular No. 2080—Bills 289, dated 6th September 1905.

REVENUE AND RECEIPTS PAID INTO ONE TREASURY ON ACCOUNT OF ANOTHER.

Instances of issues of P. S. T. Receipts for Revenue and Receipts received in one taluk on account of another, having been resorted to rather freely of late, involving needless additional work on the Treasuries, the Comptroller, in consultation with the Heads of several Departments, has the honor to prescribe the procedure noted below to be followed in future as regards Revenue and Receipts paid in one Treasury on account of another.

1. *Registration Memo Fees.*—These remittances should be credited at once to the proper head in the Treasury at which they are tendered, the District Registrars on account of whom these amounts are received, being given the necessary intimation to make needful entries in their accounts.

2. *Sale Proceeds of Timber, Sandalwood, etc.*—These sums should be accompanied by a requisition from the Assistant Conservator or other District Forest Officers by whom the sales were conducted. The amounts should be credited at once to "Forest Remittances" and advice sent to the District Forest Officer concerned, clearly specifying the name of the purchaser or other person from whom the amounts were tendered and also the number and date of the advice or remittance chellan issued by the District Forest Officer to enable the latter to effect necessary entries in his books.

3. *Land Revenue.*—Chellans in duplicate containing all the particulars required in the Government Notification No. R. 2197—L. R. 34-04-3, dated 7th September 1904, should invariably accompany when any Land Revenue belonging to one district is tendered for receipt into a Government Treasury of another district. The sums should then be credited to the proper head of account, due intimation of the credit being sent to the Amildar of the taluk concerned.

In the case mentioned above, the Demand, Collection and Balance statements of the taluk or district to which the Revenue belongs will include the amounts collected elsewhere on its behalf, while the taluk or district in which the monies are actually received and credited will omit the same from its D. C. B. Statements. As there will be differences between Treasury credits and D. C. B. Statements in both the Districts, the information furnished by the receiving Treasury will afford materials for foot notes being inserted explanatory of such differences between the D. C. B. and the Treasury credits.

Note.—This does not contravene the provisions of Article 143, C. A. C., Vol. I, regarding the issue of P. S. T. R. for Land Revenue and Cesses. But applications for issue of Remittance Transfer Receipts should be accompanied with chellans in duplicate furnishing full particulars of the Revenue sought to be remitted.

4. *Sums tendered in Adjustment of Advances.*—The practice of issuing P. S. T. Receipts for sums tendered in adjustment of advances, except in the case of permanent advances, should be discontinued. Chellans tendered with such sums should clearly specify whether the original advance was made from permanent advance or otherwise. The chellans should also furnish the name of the Treasury from which, and the month in which, the original advance was drawn, the aggregate amount thereof, and the balance if any due after deducting the amount now tendered. The amounts so tendered should be credited to "advances recoverable" or other appropriate heads concerned and a schedule of such sums with full particulars and the original place of debit should accompany the Treasury Cash Accounts monthly.

5. To facilitate giving of the intimation above referred to to other taluks, &c., the use of counterfoil book in the following form is suggested.

11. Public health generally good.

12. Cattle healthy. Water and pasture available. Fodder is insufficient in Sira and Pavagada.

MYSORE.

8. Market fairly well supplied.

9. Standing dry crops, such as ragi, cholum, togari, ballar, kulthi, black and green grams, til, castor, haraka and tadagani which were reported to be withering last week have much improved by the recent rains throughout the district, except in Nagamangala where the dry crops are still withering for want of rain. Paddy and sugar-cane under tanks and channels are good. Lands in parts of Seringapatam are being ploughed for sowing horse gram. Horse gram is being sown in parts of Heggaddevankote and Krishnarajpete. Kar-paddy in parts of T.-Narsipur, sugar-cane in parts of Krishnarajpete, ragi and til in parts of Hunsur are being harvested. The yield of harvested kar-paddy in T.-Narsipur is estimated at 14 annas per rupee, and that of ragi and til in Hunsur at 12 and 10 annas respectively. Paddy crops in Biligere hobli of the Nanjangud Taluk which were affected by "*Kembatte Mari*" are reported to be getting free from it.

10. Prospects fair on the whole, but more rain is wanted for the standing crops in most parts. Food stocks sufficient for the present in all the taluks except Hunsur where the stock is diminishing.

11. Public health generally good except for plague in a few places. Small-pox is prevailing in parts of Gundlupet.

12. Cattle are healthy everywhere. Fodder is available except in parts of Nagamangala where it is reported to be scanty. Water is generally available.

HASSAN.

8. Market fairly well supplied, but prices are high.

9. Standing crops, *viz.*, paddy, ragi, kulthi, chillies, pigeon-pea, black gram, cow gram, etc., are reported to be poor in condition in all the taluks for want of rain. Paddy and sugar-cane under channels in the Channarayapatna Taluk are reported to be in good condition. Paddy and ragi are fair in Manjarabad and ragi is being transplanted. It is reported that caterpillars are causing some damage to castor and chillies in parts of Belur Taluk; kulthi and wild gingelly in parts of Hassan Taluk; black and green grams in parts of Arkalgud are being sown. Gid-ragi, same, onions, potatoes in Hassan, gid-ragi, mustard and navane in Arkalgud; gid-ragi, cholum and sugar-cane in Channarayapatna; chillies in Arsikere; and gid-ragi, cholum and same in Hole-Narsipur are being harvested.

The following is the probable outturn:—

Hassan ...	Gidda-ragi (under harvest) ...	8 to 12 annas.	
Belur ...	Do (harvested) ...	8 annas.	
Arsikere ..	Ragi in parts	12 annas.	(If more
	Chillies (harvested) ..	2 to 4 annas.	rain
	Standing crops	2 to 8 annas.	falls).
Arkalgud ...	Ragi (harvested)	10 to 12 annas.

Alur ...	Standing crops other than paddy	12 to 16 do	

10. Prospects fair. Rain is generally wanted everywhere. Food stocks are available.

11. Public health generally good. Small-pox prevails in two villages of the Channarayapatna Taluk.

12. Cattle generally healthy. Water available. Fodder is available in all the taluks except Channarayapatna and Arsikere and scanty in Hassan. Pasture available.

SHIMOGA.

8. Market is well supplied but prices are high.

9. Transplantation of paddy is almost over in the malnad taluks. Of the standing crops chillies, ragi, great millet and sugar-cane are in a fair condition, but they all want rain. Paddy wants rain very badly. In some places the crop has withered completely. In others the outturn is affected, their prospect depending on early showers. Picking of cardamom has begun in the Sagar Taluk.

10. Prospects fair for dry crops. Rice requires more rain. Food stocks are sufficient.

11. Public health generally good except for plague and cholera in some parts.

12. Cattle are healthy. Water and fodder are getting scarce in the semi-malnad and maidan parts owing to the continued holding off of the rains. Scarcity of fodder continues to be felt in the Honnali Taluk and the cattle there are being taken to the malnad for grazing.

KADUR.

8. Market fairly supplied.

9. Standing crops of sugar-cane and coffee are good in Koppa and paddy in Mudgere is fair. Crops are badly in need of rain in Tarikere, Kadur and Chikmagalur, and are fading in Kadur and Tarikere. Ragi in Chikmagalur, gingelly in Tarikere and cholum in Kadur are being harvested. The arecanut crop in some parts of Yedahalli is affected by "*kole roga.*"

10. Prospects not encouraging. More rain is needed in Tarikere, Kadur, Chikmagalur and Yedahalli. Food stocks are available in all taluks and are reported to be sufficient.

11. Public health good.

12. Cattle healthy. Fodder available except in Kadur where it is scanty.

CHITALDRUG.

8. Market well supplied.

9. Til and green and black grams were harvested during the week in Davangere. The standing crops are withering in many parts as more rain is wanted.

10. Prospects of the season uncertain. Food stocks available.

11. Public health generally good.

12. Cattle healthy. Fodder is procurable in limited quantities.
